

Mangrove Replanting Project Underway in Portland Cottage

A mangrove replanting project is currently underway at Portland Cottage, in Clarendon.

A delegation from the European Union (EU), the United Nations Environmental Programme (UNEP) and the National Environment and Planning Agency (NEPA) will conduct a site visit and tour under Component 2 of the Climate Change Adaptation and Disaster Risk Reduction Project (CCADRRP), on March 14.

The project, valued at €4.482 million, and which is expected to last for 30 months, is being carried out under the supervision of NEPA.

The tour will provide the overseas based EU delegation with an opportunity for the gathering of pertinent information and a chance to see the impact the project has had on targeted communities.

INDIA - A compilation of poems and slogans written in Hindi and English by high school students provides strong message on the importance of protecting the environment in order to reduce the risk of disasters

This compilation of poems and slogans written in Hindi and English by high school students provides strong message on the importance of protecting the environment in order to reduce the risk of disasters and achieve sustainable development. Its aim is to raise public awareness about disaster risks related to natural hazards, such as earthquake, flood, drought, cyclone, landslide, epidemics and forest fire, and to initiate thinking process and engage people, particularly children, on how environmental protection can reduce disasters.
